

INTERNATIONAL FOOD MARKET

A lot of people want to try new foods but don't know the variety that is out there and how to go about it

This platform allows users to have access to all kinds of food recipes across the world and different cultures all in one place.

- Search/Retrieve list of recipes, with their names, categories, ingredients, directions, time, nutrients and cultural significance.
- Search for keywords example; by name, ingredients etc

It also allows registered consumers to organize recipes by;

-get list of collections or a collection

-retrieve list of collection by recipeId

Create or add collection

-Update and Delete from the collection.

It allows ADMINS with special permissions to do all the above and Also;

-retrieve collection data by userId

-add new recipes

-update recipes

-delete recipes, according to names, id, ingredients, nutrients, directions, cultural significance.
